Silikal Reactive Resin Flooring for  
**tuning workshop “Schmidti Tuning”**

Expect more from your floor.

On the basis of Silikal reactive resins:

## Faster Floors for Faster Cars

The new "Schmiddy-Tuning" company buildings in Neuwied are a showcase example project. Everything here revolves around highly modern chip tuning, and more respectively the implementation of technically highbrow software for fast cars. The basis for everything here are the highly resilient floor coatings made from Silikal reactive resin.

The floor is resistant to all the daily burdens of an automotive plant and is also attractive and non-sensitive to dirt proving it to be reliable flooring for day to day use. The flooring covers a 220 square metre area that includes the tuning area as well as the administrative offices, the stairway, the sanitary facilities and the kitchen.

The company manager Jörg Schmitt is pleased with the decision: "The flooring looks good and is easy to look after. It's just as we had imagined it to be." Interspersed coloured flakes in blue and white match the company colours and give the facilities a fresh, well maintained appearance. Fitting non slip steps offer safety.

Speed was an important issue for "Schmiddy-Tuning" even in the early stages of the lamination work. Thanks to an extremely short hardening time the extensive work could be completed in just a few days.

## Silikal. One name for all floors.

### Your call – Silikal!

The best at a glance:

#### Hygienic and clean

- ▶ Monolithic, seamless surface
- ▶ Resistant to alkalis, acids, greases, oils, salts and other aggressive media (for details, see the Technical Data Sheet)
- ▶ Easy to take care of

#### Safe

- ▶ Anti-skid surface grades
- ▶ Wear and tear resistant
- ▶ Can withstand hot and cold

#### Quick and beautiful

- ▶ Extremely short curing times; no interruptions in business when renovations are made!
- ▶ Easy to apply, even at temperatures below zero
- ▶ Selection of appealing colours, e. g. with coloured quartz sand or flakes mixtures as standard
