

*So everything runs smoothly:*

## **Flooring from Silikal for the “Bike-Academy“**

**Expect more from your floor.**

## Demanding concept for high-tech bicycles

Bicycle oils, tire particles, loads from trolleys ... Not a problem for the Tyrolean "Bike-Acedemy". Everything runs smoothly here, on superior flooring. Reactive resin coatings from Silikal provide that the floor is not only easy to clean, but also easy to keep clean.

The new flooring was installed in no time and was ready to be used and fully loaded again just one hour after installation. The red colour combination of the

artificial resin coating was in accordance with the customer's request. In the sales and maintenance area it emphasizes the company's dynamic and demanding concept.

Top quality mountain bikes are sold and repaired at the "Bike Academy". High-tech bicycles for beginners and advanced riders, or for anyone who would like to attend the affiliated mountain biking school.

**Silikal**  
made in Germany  
since 1951

*Skillfully applied by qualified installers and the new floor is fully cured and ready for action within one hour. A perfect way to keep your operation running wide open.*

**Expect more from your floor.**

**Silikal** GmbH

Reactive resins and polymer concrete for industrial floors and civil engineering projects
